

# EVACUATION + EMERGENCY PREPAREDNESS GUIDE

## THIS INFORMATION MAY HELP SAVE YOUR LIFE IN AN EMERGENCY

#### **KEEP FOR FUTURE USE**

As part of the Tahoe Donner Association Emergency Plan, Tahoe Donner employees and volunteers have developed this Evacuation and Emergency Preparedness Guide for all Tahoe Donner homeowners, renters and visiting guests. It was developed using up-to-date emergency planning guidance from local, state and federal authorities and in conjunction with the Town of Truckee. The keys to safe evacuation are **implementation** and **planning**, which is how we have arranged this guide.

The Town of Truckee Police Department and the Truckee Fire Protection District have the primary responsibility to initiate emergency notifications and respond to emergencies in Tahoe Donner. Tahoe Donner staff will not be available to assist you in the event of an emergency, as they have the responsibility to ready Tahoe Donner property and staff for closure and evacuation.

# **EVACUATION WARNINGS + NOTIFICATIONS**

#### EVACUATION WARNING -GET OUT, GO EARLY, DON'T RE-ENTER

IF YOU RECEIVE AN EVACUATION WARNING, PREPARE TO LEAVE AND CONSIDER LEAVING EARLY

Familiarize yourself with your evacuation zone and those around you by going to Know Your Zone at *townoftruckee.gov/519/Know-Your-Zone*. Depending on how much time you have, reference the Evacuation Order Checklist on page 7.

#### WHEN AN EVACUATION IS ORDERED, LEAVE IMMEDIATELY

People have died from evacuating too late. Don't stay to save your home; those who do often become a statistic. Emergency conditions can change rapidly, so getting the most current information is your best tool for knowing how to react.

STAY CALM AND FOLLOW DIRECTIONS

This Evacuation and Emergency Preparedness Guide cannot predict all possible evacuation scenarios. Each incident presents unique problems and may require alternative evacuation routes. This makes it imperative that you listen to and follow all directions from first responders (police, firefighters, etc.). Don't wait to be notified to evacuate – if you think it is time to leave, you are probably correct.

#### ONCE OUT, STAY OUT

Once out, you will not be allowed back into your home until the evacuation order is lifted. This is for your safety and the safety of emergency responders. It also reduces the chance of looting.

### **STAY INFORMED**

- CodeRED notifications are the recommended way to stay informed before, during and after an evacuation.
- Know Your Zone and learn more about evacuation zones at nevadacountyca.gov/3223/Evacuation-Zones.
- Keep your cell phone with you and on at night to receive important alerts.
- If you have a VoIP (voice over internet protocol) system, register with CodeRED to receive "Reverse 911" calls.
- Keep a landline phone available for emergency evacuation information and to receive "Reverse 911" calls.
- ➔ If your family is not all together at the time of an alert or evacuation, follow your Family Communication Plan. See the available "Plan Ahead for Disasters" template at tahoedonner.com/preparedness.
- Follow directions from first responders (police, firefighters, etc.) as you evacuate. Remember, once an evacuation starts, you will not be able to get back into Tahoe Donner.
- + IF YOU ARE UNABLE TO EVACUATE, CALL 911.
- Go to or monitor *fire.ca.gov/incidents* for up-to-date information on larger, longer-running fires.
- Call 211 for emergency updates. Do NOT call 911 for information - only call 911 if you have an emergency to report.

#### **EMERGENCY NOTIFICATION LEVELS**

Tahoe Donner is one of many subdivisions in Truckee, and all emergency responses are provided by the Town of Truckee, Truckee Fire Protection District and CAL FIRE. In the case of a wildfire, initial units on scene will determine the need for evacuations and community notifications.

#### LEVELS + LANGUAGE

#### EVACUATION ORDER

There is imminent danger. Leave now; do not wait. Go now!

Choosing to stay could result in loss of life and impede the work of emergency personnel. (Due to the changing nature of emergencies, this may be the only warning that people in affected areas receive.)

#### **EVACUATION WARNING**

The area being warned is threatened, and evacuations are possible. People needing extra time to evacuate should consider leaving now. See page 2 for details.

#### SHELTER-IN-PLACE

Announcements advise people to stay secure at their current location by remaining in place, as evacuation will cause a higher potential for loss of life.

#### **COMMUNITY ADVISORIES**

Advisories will be issued when conditions warrant increased concerns, such as Red Flag Warnings (see below), wind events, holidays, etc. These are times when you should be extra aware and carry cell phones with you.

Advisories may also be issued from the Truckee Donner Public Utility District regarding NV Energy Public Safety Outage Management (PSOM) events, where power is decreased or shut off for additional safety. To learn more about the PSOM program, visit *tdpud.org/psom*.

#### **RED FLAG WARNINGS + FIRE WEATHER WATCHES**

The National Weather Service issues Red Flag Warnings and Fire Weather Watches to alert people of the onset, or possible onset, of critical weather and dry conditions that could lead to rapid and dramatic increases in wildfire activity.

A Red Flag Warning is issued for weather events that may result in extreme fire behavior within the next 24 hours. A Red Flag Warning is the highest alert within this system. During these times, extreme caution is urged by all residents because a simple spark can cause a major wildfire.

A Fire Weather Watch is issued when critical weather conditions could exist in the next 12-72 hours. A Fire Weather Watch is one level below a Warning, but fire danger is still high.

The types of weather that can cause a Watch or Warning include low relative humidity, strong winds, dry fuels, the possibility of dry lightning strikes or any combination of the above.

It is important all residents and visitors take steps to prevent wildfires. One less spark could mean one less wildfire. Learn about fire prevention at *tahoedonner.com/fire-safety*.

#### HOW WILL YOU BE NOTIFIED?

The Truckee Police Department and Truckee Fire Protection District utilize CodeRED as their primary emergency alert notification system, which sends messages to your cell phone. You may also be notified via friends or relatives, phone, radio (AM or FM), TV, wireless alerts, NOAA weather alerts or "Reverse 911" calls. However, subscribing to CodeRED to receive notifications is preferred.

#### **TEXT MESSAGES + APP NOTIFICATIONS**

#### **CodeRed Emergency SMS Alerts**

- **Online** for updates at *mynevadacounty.com/oes* or *truckeepolice.com/disaster-preparedness*
- Call 211 or (833) DIAL211 / (833) 342-5211
- Text ReadyNevadaCounty to 99411 and follow the prompt

#### Know Your Zone with Genasys Protect

- protect.genasys.com
- townoftruckee.gov/519/Know-Your-Zone

#### Watch Duty App

• app.watchduty.org

#### RADIO

#### KTKE 101.5 FM

Truckee station, provides emergency info

#### 1670 AM

Community advisory radio station

**KKOH 780 AM** and **KUNR 88.7 FM** Local public radio affiliates

#### TELEVISION

Both Reno and Sacramento cable and satellite television stations may broadcast emergency information

#### FIND YOUR FIVE

Create a group of friends, family members or neighbors who commit to keeping each other informed when there is an emergency.

mynevadacounty.com/2760/Find-Your-Five-Share-Your-Plan

#### "HI-LO" SIREN

All Truckee Fire Protection District and Truckee

Police Department vehicles have installed and started implementing the "Hi-Lo" Siren, which sounds like the European siren, for evacuation notice. They will be used

by vehicles combing the streets in emergency situations to alert residents when they need to evacuate. "Hear the 'Hi-Lo' - it's time to go."

# **PLANNING FOR AN EVACUATION**

#### **EVACUATION ROUTES**

- See Tahoe Donner Association Evacuation Map on the back cover, and take it with you in an emergency.
- Make sure you know which evacuation zone you are in. If you are unsure of which evacuation zone you are in, visit townoftruckee.gov/519/Know-Your-Zone to determine yours.
- Know your destination based on the alert and your preplanning.
- Consider going to Reno or Sacramento to stay well out of the area.
- Establish an out-of-area contact person and location as a family destination.
- Print extra copies of the Tahoe Donner Association Evacuation Map available at *tahoedonner.com/preparedness*. Identify your property or rental location and mark it on the map so exit routes are apparent.
- Take a copy with evacuation routes preprinted and determine your destination based on the evacuation order or your family's preplanning work.
- Go early gather medications, go bag, pets and family members and GO!

#### FOLLOW INSTRUCTIONS FROM POLICE OR OTHER FIRST RESPONDERS

This Evacuation and Emergency Preparedness Guide cannot predict all possible evacuation scenarios. Each incident presents unique problems and may require alternative evacuation routes. This makes it imperative that you listen to and follow all directions. Don't wait to be notified to evacuate – if you think it is time to leave, you are probably correct.

#### **EVACUATION DESTINATION**

Follow instructions and cooperate with emergency personnel. If you do not have a preplanned family destination, there are multiple community evacuation destinations to which you may be directed (likely in Reno). Notify a previously established out-of-area contact person of your location and status.

- Leave a note somewhere visible within your residence with emergency contact information for your family and your out-of-area contact person in case emergency crews need to contact you.
- Take only essential vehicles more vehicles lead to more congestion on the road. Larger vehicles such as horse trailers and RVs clog evacuation routes and endanger everyone's lives.
- Wear long trousers, heavy shoes, cotton long-sleeved shirts, gloves and scarves. No polyester or synthetics they melt.
- Stay clear of all downed powerlines and poles. Always assume they are live.

#### **ANIMAL EVACUATIONS**

Listen to local media for animal evacuation locations. Pets/animals are not allowed at Red Cross shelters, except for qualified service animals belonging to people with disabilities.

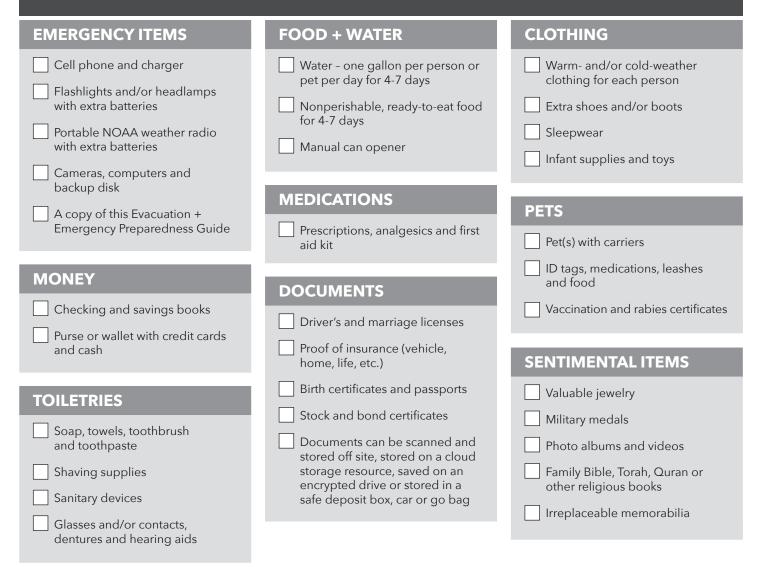

Owners are responsible for finding placement for pets/animals during an evacuation. The Red Cross prefers to co-locate animals alongside human shelters whenever possible. For animal-specific evacuation planning, visit *ready.gov/animals*.

### **IMPORTANT REMINDER**

Remember that the Town of Truckee has the primary responsibility to respond to emergencies in Tahoe Donner. Tahoe Donner employees will not be available to assist you in the event of an emergency, as they have the responsibility to ready Tahoe Donner property and staff for closure and evacuation. The Town of Truckee Police Department and Truckee Fire Protection District have the primary responsibility for emergency notifications and emergency response.

# **GO BAG** SUGGESTED ITEMS TO TAKE IN AN EMERGENCY EVACUATION

### A GO BAG IS A PRE-PACKED BAG OR BIN WITH ESSENTIAL ITEMS AND IS KEPT IN A READILY ACCESSIBLE LOCATION FOR USE IN THE EVENT OF AN EMERGENCY EVACUATION OF ONE'S HOME.

### **REMEMBER THE SIX "Ps"**

- People and pets
- Papers, phone numbers and important documents
- Prescriptions, vitamins and glasses

- Pictures and irreplaceable memorabilia
- Personal computers, hard drives and disks
- "Plastic" (credit cards, ATM cards) and cash

#### **KEEP THIS EVACUATION + EMERGENCY PREPAREDNESS GUIDE HANDY**

Make sure you have this Evacuation + Emergency Preparedness Guide with you no matter where you are. Scan the QR code to visit the Tahoe Donner Community Safety + Emergency Preparedenss webpage and save this guide to your phone or wireless device before emergencies happen.

NOTE: The internet may be slow or unresponsive in an emergency situation.

# **EMERGENCY PLANNING**

#### IS AN EMERGENCY PLAN REALLY NECESSARY?

Truckee has the potential for many natural disasters, with wildland fire being the number one hazard in our community. However, various other emergencies are possible – including heavy rains, high winds, snowstorms, extreme heat or cold, flooding, earthquakes and hazardous material releases. In the event of an emergency, this guide will help you remain informed and prepared well ahead of time to take care of yourself and your loved ones, pets and neighbors.

At *tahoedonner.com/preparedness*, you'll find links to resources created to help you prepare for a range of possible emergencies that could occur in Tahoe Donner, including home fires, earthquakes, active shooters and more. It is up to you to determine the level of emergency planning that is appropriate for you and your family.

# **EVACUATION ORDER CHECKLIST**

#### THE AMOUNT OF TIME YOU HAVE CAN CHANGE AT A MOMENT'S NOTICE. START WITH THE FIRST PRIORITY: SECURE THE STRUCTURE, PEOPLE AND PETS.

EVACUATION ORDER IMMINENT + IMMEDIATE THREAT; LEAVE IMMEDIATELY AS DIRECTED PRIORITY 1 Load your vehicle with your pets and go bag containing medications, important documents and supplies. Get out, go and go early. PRIORITY 2 Close windows, vents, doors, blinds, non-combustible window coverings and drapes. PRIORITY 3 Turn off propane tanks, including BBQ and other portable tanks. Affix wrench to propane tank or natural gas regulator for quick access to shut off gas during an emergency. Only turn off propane or natural gas if smelled or recommended. After fire threat passes, call gas company to re-establish service if assistance is needed. EVACUATION WARNING POTENTIAL THREAT; PREPARE FOR POTENTIAL EVACUATION PRIORITY 1 Keep fuel level high or full in car. Park car in driveway facing out with keys in ignition for a quick exit. Disconnect automatic garage door opener for quick access by emergency personnel. Close fireplace screens and/or doors. PRIORITY 2 Move flammable furniture, doormats, brooms and other flammable items into the center of the home, PRIORITY 3 away from windows and glass doors. Erect ladders against house and place firefighting tools (rake, shovel, chainsaw) in front of house. **PRIORITY** 4

- **PRIORITY 5** Protect water sources wet down pump house and clear flammable vegetation away from supply infrastructure.
- **PRIORITY 6** Implement evacuation of livestock.

# PRE-EVACUATION PRIORITY 1 See Annual Pre-Emergency Planning on page 7.

# FOUR-DAY SURVIVAL KIT WHAT TO HAVE IN SITUATIONS WHERE YOU MAY BE SNOWED IN OR STUCK IN YOUR HOME FOR AN EXTENDED PERIOD

<ul> <li>A good first aid kit</li> <li>Flashlights, candles, lanterns or oil lamps with fuel</li> <li>One gallon of drinking water per person/pet per day for four days</li> <li>Freeze-dried and canned food- make it a variety and include a hand-operated can opener</li> <li>Small shovel</li> <li>Large box of wooden matches</li> <li>Flashlights, candles, lanterns or oil lamps with fuel</li> <li>Camping stove with fuel - cook only in well-ventilated areas</li> <li>Camping stove with fuel - cook only in well-ventilated areas</li> <li>Cards, games, books and other things to keep your mind busy (you will still have all of your home's amenities, such as hygiene supplies warm clothes and blankets - think of it as "camping at home")</li> </ul>
---

# ANNUAL PRE-EMERGENCY PLANNING EMERGENCY PREPAREDNESS PROFESSIONALS RECOMMEND THAT EVERY FAMILY PREPARE OR REVIEW THEIR EMERGENCY PLAN ANNUALLY

<ul> <li>Agree in advance what family members should do if they are away from home when an emergency strikes.</li> <li>Establish a meeting place away from the evacuated area to reconnect with loved ones. Our meeting place is:</li> <li>Become familiar with more than one evacuation route from your home.</li> <li>If children will be home without access to transportation, create an emergency exit strategy and arrange for a trusted neighbor or friend to take care of them.</li> <li>Ask an out-of-area friend or relative to be your emergency contact during a disaster. Everyone in your family should be instructed to call this person with their location. In the event of a disaster, we will call:</li> </ul>	<ul> <li>Check flashlights and replace batteries regularly.</li> <li>Check portable water and chemical fire extinguishers.</li> <li>Affix a wrench to the propane tank or natural gas regulator for quick access to shut off gas in the event of an emergency. Only turn off natural gas or LP if smelled or it has been recommended by a first responder.</li> <li>During fire season, maintain vehicles with at least half a tank of gasoline at all times.</li> <li>Keep gutters and roofs clear of leaves and pine needles.</li> <li>Create and maintain at least 100 feet (more on steep slopes) of defensible space around your home.</li> <li>Service (top off gas) and test emergency backup generator regularly.</li> </ul>
Plan how to care for your pets.	Have a reflective house number posted at the road to quickly direct emergency crews to your home.
Check and restock emergency supplies.	Check to ensure that you have adequate insurance coverage (home, fire, car, renters, etc.).
Identify the location of family photos and important documents such as wills, insurance policies, passports, social security cards and immunization records. Make copies and import important documents and photos.	Replace stored water and food at least every six months. Commercially bottled water should be replaced every five years.
Store physical documents off site or in a safe deposit box.	Test your smoke detectors and carbon monoxide detectors monthly, and change batteries at least once a year.
Update household inventory with a video/photograph of house/personal effects for insurance annually.	Hold a family meeting to review your emergency plan on an annual basis.
Back up important computer files. Store a hard copy backup in a safety deposit box, on an encrypted flash drive or on cloud storage to access your files from anywhere.	Store all ammunition, fuels, chemicals and paints within flame-resistant cabinets or safes.
